- Information update
- Quick reminders
- We will be looking at what's new

Information update

Wet weather rules

If it's raining OR been raining for a while then the field and some OPAL bits won't be open as they can be a little hazardous, such as the scooter track

Looking after equipment

While we know that things get broken, there is still a lack of care when it comes to some of the amazing donations. Please think about ways to look after items, for example, putting lids on boxes to stop them getting wet and taking care with breakable items.

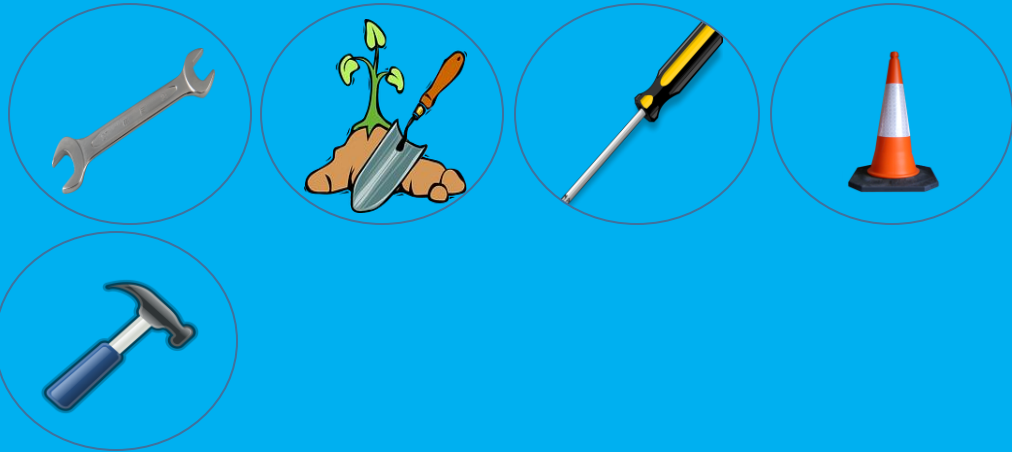

Tidying up

Choose it, use it and put it away

Quick reminders - Tools versus Toys

Tools have a job to do and should be used ONLY to do that job. Examples of tools are:

Toys – items that have multiple uses and get be used for imaginative play

Quick reminders – sandpit/mud kitchen

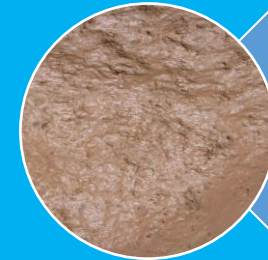

Storage:
spades and
trousers to
be returned
to the boxes

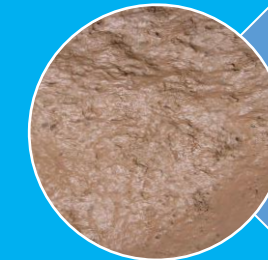

PLASTIC
spades not
metal trowels

Wellies and
waterproof
trousers in wet
weather

Don't throw
the mud

Spades are
tools, not
toys

Quick reminders – New home for Duplo & small world

The Duplo and small world boxes were filling up with water in rain, so we've moved them undercover!

These areas can now be found outside of year 5 – happy playing!

****Please put the lids back on boxes****

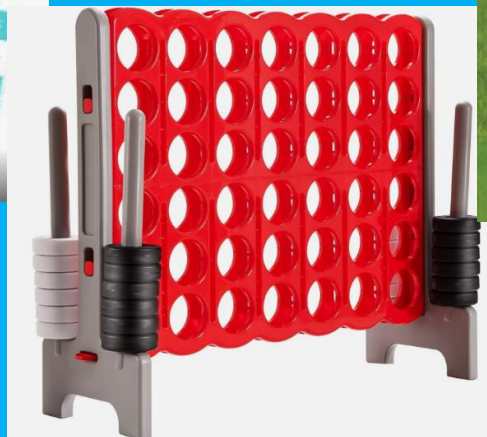

NEW Flowers pending

In the next few weeks, the tyres outside of year 5 will be filled with small flowers and bulbs.
Please don't climb on the tyres!

** Feel free to help keep the tyre planters weed-free and watered**

NEW Summer games

Please put the bits
back in the box!

Look after the
equipment, leaving it
as you found it

Turn-taking

Using the parts for
their intended purpose

**** Coming Soon ****

Water play

We're really excited about our pending water area! Guttering, stands and jugs – just waiting on some sunshine!

Re-wilding area

The old mud kitchen area has now been fenced off. We've laid wildflower seeds and there will be a bit of construction over the next few weeks to transform this area into a wildlife haven.
